SECTION I - PART A

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION CODES

NOTE: CATEGORY "A" CODES ARE TO BE USED FOR R&D TRANS-ACTIONS ONLY.

SECTION I - CODING FOR ITEM 10A OF DD FORM 350

(FEDERAL SUPPLY CLASS OR SERVICE CODE)

GENERAL. A four-digit code, as provided by this Section I, shall be entered in Item 10A of every procurement action reported on DD Form 350. Only one code number shall be entered. If more than one code is applicable, enter the code which describes the predominant product or service procured (see also DARS 21-116).

If the action is for research, development, test, or evaluation work (RDT&E), enter a code from Part A of this section. RDT&E is defined in DARS 4-101. Do not assign a RDT&E code to supplies or housekeeping services purchased in support of "in-house" research or development work; such supplies are coded in accordance with Part C of Section I and the services in accordance with Part B. Procurement personnel responsible for coding RDT&E actions shall obtain sufficient information from requisitioning personnel to permit accurate classification in accordance with Part A.

If the action is for services other than RDT&E work, enter a code from Part B of Section I, and if it is for supplies, enter a code from Part C.

PART A - RESEARCH, DEVELOPMENT, TEST, AND EVALUATION (RDT&E)

PURPOSE. The DD Form 350 codes in this part have been revised to coincide with the guidelines established by the Federal Procurement Data Center. Previous editions of this manual contained a separate section for each of the departments. Beginning with fiscal year 1979, Section IA is applicable to all DoD purchasing offices.

DESCRIPTION. The RDT&E code is composed of two alphabetical and two numeric digits. The first digit is always the letter "A" to identify RDT&E; the second digit is alphabetic "A to Z" to identify the major category; the third digit is numeric 0 to 9 to identify a subdivision of the major category; and the fourth digit will be numeric 1 to 6 to identify the type of RDT&E, and will be assigned by the contracting officer in accordance with DARS 4-101 as follows.

Fourth Position of Item 10A Code on
DD Form 350

DARS
4-101

61	1. Research	(1)
62	2. Exploratory Development	(2)
63	3. Advanced Development	(3)
64	4. Engineering Development	(4)
All Other	5. Operational Systems Development	(5)
65	6. Management & Support	(6)

When the program element number appears on the purchase document, the first two digits of this element number will determine the number to be used in the fourth position.

FOR ARMY, the third digit of Army budget activity codes beginning with 6 identifies the appropriate code for use in the fourth position. Code 5 will be entered in the fourth position for all Army budget activity codes beginning with other than 6.

When completing this item, the precise service being purchased shall be coded. Example: A contract for research on noise pollution for aircraft shall be shown under environment (AH4*) for noise pollution, and not under aircraft.

To ensure that the contract is for RDT&E, check the appropriation symbol. (Do not include housekeeping supplies or services in support of in-house RDT&E even though a RDT&E appropriation symbol is cited.) The following symbols are currently applicable:

ARMY	21X2040	AIR FORCE	57X3600
NAVY	17X1319	DARPA	97X0400.13
